GENERAL SENSOR DESCRIPTION: Header mounted sensors provides motion & presence sensing.

- **Technology:** Active infrared reflection
- **Detection Area:** Width and depth are individually adjustable
- **Operating Voltage:** 12-24 V AC, 12-30 V DC
- **Power Consumption:** < 2.5 W
- **Operating Temperature:** -31° F to +131° F (-35° C to +55° C)
- **Degree of Protection:** IP54
- Meets ANSI standards for detecting small moving object
- Meets all requirements of FCC, EC and ANSI
- Visible LED to monitor activation
- Can be used in an exposed outdoor environment
- Available in black
